### **1. Overview**

Communicating with the Media allows the Anglican Diocese of Adelaide to convey our key messages with clarity and impact. At other times we will need to respond to criticism and to give our account of policies, positions and events in the Diocese. A Media policy provides guidance for Diocesan officers to communicate with the Media with confidence.

The Diocese also recognises social media as a tool for direct communication and collaboration. Online platforms are fundamentally changing the way clergy and paid employees work and engage with each other, with parishioners and the community.

Our electronic presence is a window into the life of the church through which many people gaze. They get an understanding of who we are and what we believe by what is included.

All Officers of the Diocese are therefore accountable to ensure the use of social media and online communication is aligned to this policy to ensure the organisation and users are protected from inappropriate use, whilst also harnessing the benefits of social media.

### **2. Scope**

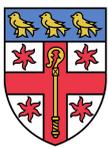

This policy relates to the Synod of the Diocese of Adelaide of the Anglican Church of Australia Incorporated, as well as all Parishes and staff that comprise the Anglican Diocese of Adelaide. This is to ensure compliance with all relevant Synod insurance policies.

Guidelines for the Diocese and Parishes regarding communication with media and social media use have been prepared and are attached to this Policy.

### **3. Purpose**

This policy is intended to help clergy, volunteers and paid employees of the Diocese (Officers of the Diocese) make appropriate decisions about both communicating with the traditional print and broadcast Media, and the use of social media such as blogs, social networking websites, podcasts, forums, message boards, or comments on web-articles, such as Twitter, Facebook, or LinkedIn.

Officers of the Diocese should understand how communication with the Media is important and can help achieve strategic objectives, as well as the need to be well-prepared for interviews how to deliver a clear message.

Officers of the Diocese should also be aware of and understand the potential risks and damage to the Diocese or a parish that can occur, either directly or indirectly from their personal use of social media and all should comply with this policy to ensure that the risk is minimised.

Officers of the Diocese are personally responsible for content published in their personal capacity on any form of social media platform. When in doubt, employees can seek guidance from the Diocesan Media Officer on how to comply with the following obligations.
